Contents to *Plant and Soil*, Volume 113

D.K. Acquaye and H. Beringer, Sulfur in Ghanaian soils. I. Status and distribution of different forms of sulfur in some typical profiles 197

D.K. Acquaye and H. Beringer, Sulfur in Ghanaian soils. II. Assessment of sulfur availability status of the surface soils 205

*M.B. Adams, K.D. Pennell and R.G. Campbell, Fine root distribution in a young loblolly pine (*Pinus taeda* L.) stand: Effects of preplant phosphorus fertilization 275

A. Albuzio and G. Ferrari, Modulation of the molecular size of humic substances by organic acids of the root exudátes 237

F. Azam, M. Yousaf, F. Hussain and K.A. Malik, Determination of biomass N in some agricultural soils of Punjab, Pakistan 223

R. Baas, C. van Dijk and S.R. Troelstra, Effects of rhizosphere soil, vesicular-arbuscular mycorrhizal fungi and phosphate on *Plantago major* L. ssp. *pleiosperma* Pilger 59

*F. Bailey and N.F. Gray, The effect of replication on the probability of isolating nematophagous fungi from soil 141

H. Baltruschat and H.W. Dehne, The occurrence of vesicular-arbuscular mycorrhiza in agro-ecosystems. II. Influence of nitrogen fertilization and green manure in continuous monoculture and in crop rotation on the inoculum potential of winter barley 251

J.P. Behling, W.H. Gabelman and G.C. Gerloff, The distribution and utilization of calcium by two tomato (*Lycopersicon esculentum* Mill.) lines differing in calcium efficiency when grown under low-Ca stress 189

J. Bogemans, L. Neirinckx and J.M. Stassart, Effect of deicing chloride salts on ion accumulation in spruce (*Picea abies* (L.) sp.) 3

B. de Bruin, F.W.T. Penning de Vries, L.W. van Broekhoven, N. Vertregt and S.C. van de Geijn, Net nitrogen mineralization, nitrification and CO_2 production in alternating moisture conditions in an unfertilized low-humus sandy soil from the Sahel 69

J.J. Camberato and B.R. Bock, Response of grain sorghum to enhanced-ammonium supply . . . 79

K.K. Chow and T.V. Price, Biomass and flower production of winged bean in a nutrient film (NFT) hydroponic system 85

*A.L. Cogle, P.G. Saffigna and P.F. Barron, The use of 13C-NMR for studies of wheat straw decomposition 125

*B. Dell and S.A. Wilson, Zinc nutrition and leaf carbonic anhydrase activity of *Eucalyptus maculata* seedlings and *Trifolium subterraneum* 287

S. Despatie, V. Furlan and J.A. Fortin, Effects of successive applications of fosetyl-Al on growth of *Allium cepa* L. associated with endomycorrhizal fungi 175

*Short Communication

J.T. English and D.J. Mitchell, Use of morphometric analysis for characterization of tobacco root growth in relation to infection by *Phytophthora parasitica* var. *nicotianae* 243

V. Furlan and M. Bernier-Cardou, Effects of N, P, and K on formation of vesicular-arbuscular mycorrhizae, growth and mineral content of onion 167

*A.R. Gillespie and P.E. Pope, Alfalfa N_2-fixation enhances the phosphorus uptake of walnut in interplantings 291

M.J. Glendining and L.R. Mytton, The response of white clover (*Trifolium repens* L.) seedlings to spring root temperatures: The relative roles of the plant and the Rhizobium bacteria 147

W. Grzebisz, J. Floris and M. van Noordwijk, Loss of dry matter and cell contents from fibrous roots of sugar beet duetto sampling, storage and washing 53

*J.M. Hainsworth and L.A.G. Aylmore, Non-uniform soil water extraction by plant roots. . . . 121

*M.C. Hawes and S.G. Pueppke, Reduced rhizosphere colonization ability of *Agrobacterium tumefaciens* chromosomal virulence (*chv*) mutants 129

E. Hoffland, G.R. Findenegg and J.A. Nelemans, Solubilization of rock phosphate by rape. I. Evaluation of the role of the nutrient uptake pattern 155

E. Hoffland, G.R. Findenegg and J.A. Nelemans, Solubilization of rock phosphate by rape. II. Local root exudation of organic acids as a response to P-starvation 161

*M. Kaupenjohann, H. Döhler and M. Bauer, Effects of N-immissions on nutrient status and vitality of *Pinus sylvestris* near a hen-house 279

F. Kurdalć, A. Capellano, A. Moiroud and A.M. Domenach, Study of the contribution of the shoot and/or root of *Alnus* sp. in the compatability between the host and a Sp^+ *Frankia* strain using a grafting technique. 101

T.A. Kursar, Evaluation of soil respiration and soil CO_2 concentration in a lowland moist forest in Panama 21

*B.D. de Lima and E.G.C. Penido, Inoculation *in vitro* of wheat seedlings and wheat straw cultures with *Bacillus azotofixans* 133

J.K. Martin and R.L. Correll, Measurement of microbial biomass phosphorus in rhizosphere soil 213

R.E. Mendoza, Different performances of soil phosphate tests for reflecting the effects of buffering capacity on uptake of native phosphate with time 13

*N.I. Mitreva, Sunflower and maize transorganal tissue pH gradients and problems related to the ion transport mechanisms 144

N.M. Nadkarni and R.B. Primack, A comparison of mineral uptake and translocation by above-ground and below-ground root systems of *Salix syringiana* 39

*R. Peterson and P. Jensén, The role of bacteria in pH increase of nettle water 137

D. Prat, Effects of some pure and mixed *Frankia* strains on seedling growth in different *Alnus* species 31

H. Raito and E. Tikkanen, Nutritional disturbances of young pines in a dry heath forest 229

*M.N. Reddy, A. Pokojska, M. Kampert and E. Strzelczyk, Auxin-, gibberellin-like substances and cytokinins in the seed and root exudates of groundnut 283

*M.R. Reddy, D. Lameck and M.E. Rezania, Uptake and distribution of copper and zinc by soybean and corn from soil treated with sewage sludge 271

J.A. Rother and B.A. Whitton, Nitrogenase activity of blue-green algae on seasonally flooded soils in Bangladesh 47

E. Sucoff, C. Buschena and P. Bloom, Response of honeylocust (*Gleditsia triacanthos* L.) to soil solution aluminium 93

P. DE WILLIGEN and M. VAN NOORDWIJK, Model calculations on the relative importance of internal longitudinal diffusion for aeration of roots of non-wetland plants 111

D.J. WOLYN, J. ATTEWELL, P.W. LUDDEN and F.A. BLISS, Indirect measures of N_2 fixation in common bean (*Phaseolus vulgaris* L.) under field conditions: The role of lateral root nodules. 181

*R.J. WRIGHT, V.C. BALIGAR, K.D. RITCHEY and S.F. WRIGHT, Influence of soil solution aluminum on root elongation of wheat seedlings 294

X. XIAN, Effect of chemical forms of cadmium, zinc, and lead in polluted soils on their uptake by cabbage plants 257

M. YAMAUCHI and M.D. WINSLOW, Effect of silica and magnesium on yield of upland rice in the humid tropics 265
